# BEYOND THE BOX: THE POWER OF CUSTOM LAYERED AUTOMATION

A Guide to Unlocking True Business Efficiency

# THE PROBLEM WITH OFF-THE-SHELF AUTOMATION

You've already invested in automation. But is it really working for you? Generic, one-size-fits-all solutions often come with hidden costs and limitations.

- ✓ **Rigid and Inflexible:** They force you to change your processes to fit the software, instead of the other way around.
- ✓ **Wasted Potential:** You're only automating a small part of your workflow, leaving manual gaps that slow you down.
- ✓ **A "Frankenstein" System:** You end up with a collection of disconnected tools that don't talk to each other, creating data silos and inefficiencies.
- ✓ **Hard to Scale:** They can't easily adapt as your business grows or as new challenges arise.

**The result? You're still spending too much time and money on manual workarounds.**

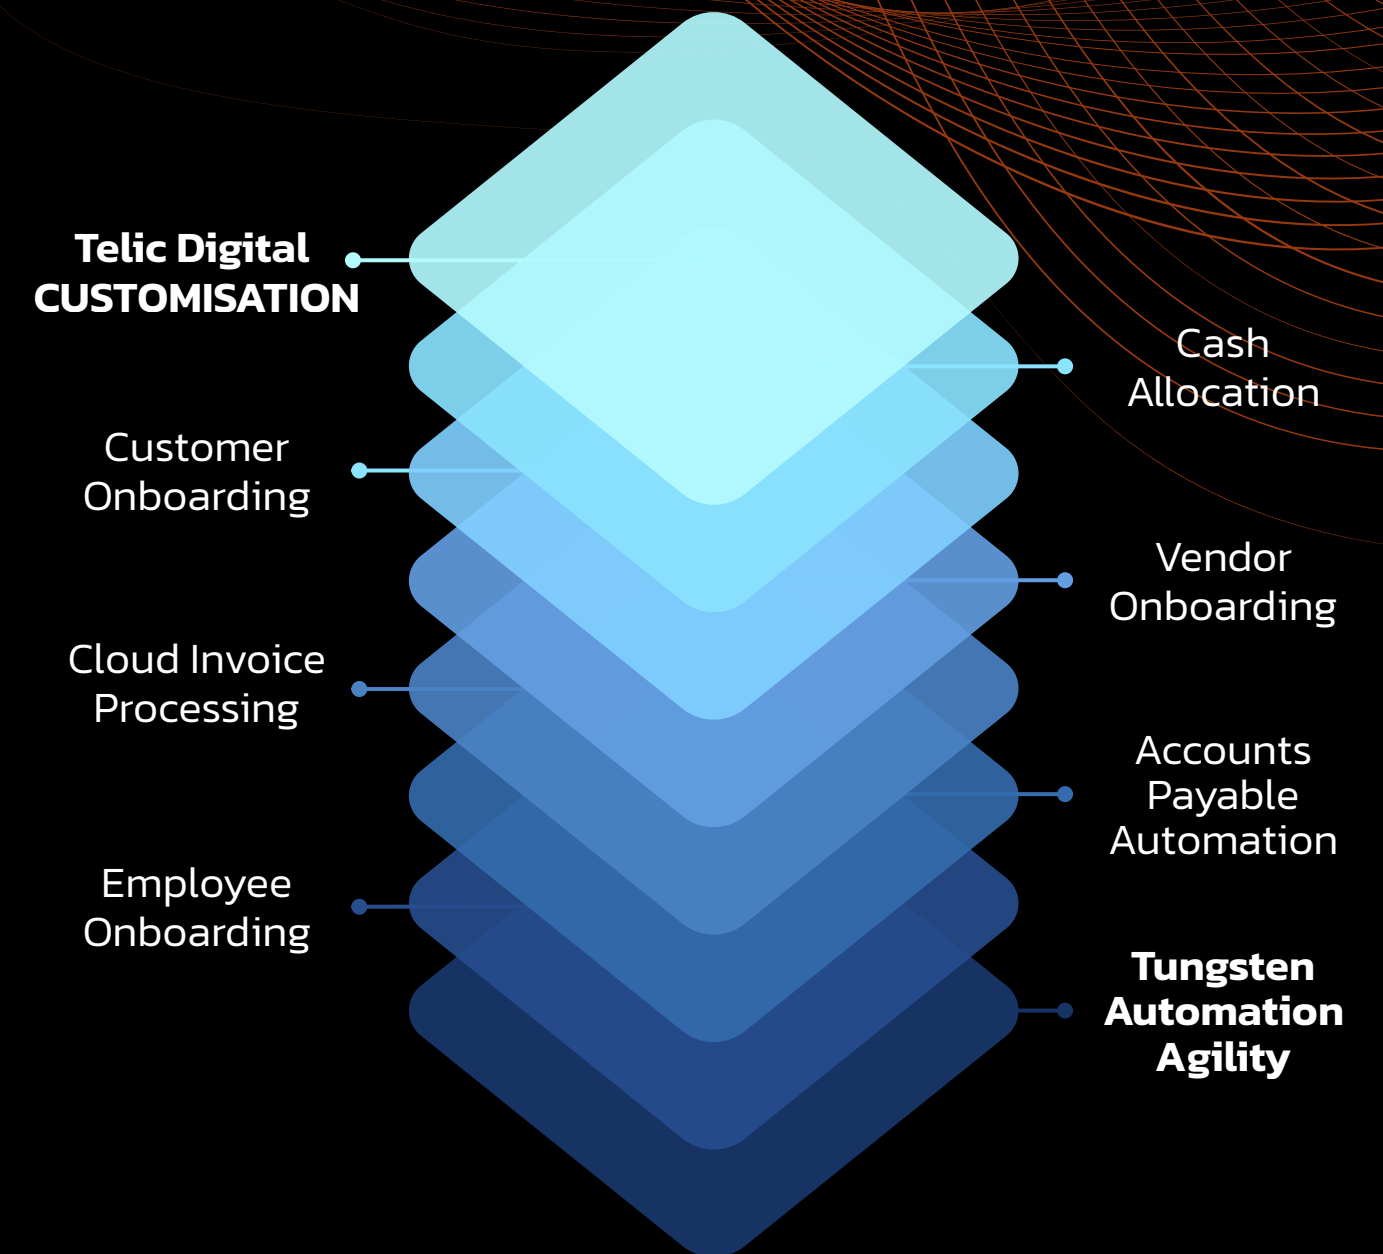

# THE SOLUTION: CUSTOM LAYERED AUTOMATION

Imagine building a solution that is perfectly aligned with your business. That's the power of custom layered automation.

We use Tungsten Automation as a robust, intelligent foundation. On top of that, we build and "stack" custom layers that address your unique needs.

This isn't about replacing what you have; it's about evolving it.

- **Foundation: Tungsten Automation** – A secure, scalable, and powerful platform.
- **Layer 1: Accounts Payable Automation** – Automate invoice capture, processing, and payment.
- **Layer 2: Employee Onboarding** – Streamline all new-hire paperwork and system access.
- **Layer 3: Cloud Invoice Processing** – Seamlessly manage invoices from any format or source.

# THE BENEFITS OF A TAILORED APPROACH

01

## UNRIVALED EFFICIENCY

Automate entire, end-to-end workflows, eliminating manual handoffs and speeding up processes.

02

## SIGNIFICANT COST SAVINGS:

Reduce operational costs by freeing your team from repetitive, low-value tasks.

03

## IMPROVED ACCURACY & COMPLIANCE

Minimise human error and build a clear, auditable trail for every transaction.

04

## SEAMLESS SCALABILITY

Easily add new layers or features as your business evolves, without disrupting your existing system.

05

## COMPETITIVE ADVANTAGE

Outperform your competitors by creating nimble, resilient, and highly optimised business processes.

# STOP ADAPTING TO YOUR SOFTWARE.

Many businesses are already using some form of automation, and they don't realise that a custom solution is within their reach.

It's time to take the next step.

Talk to the experts at Telic Digital about how we can help you build an intelligent, layered automation system that is designed for your success.
